SIZE CHARTS

HOW TO MEASURE

Width - Lay one of your existing shirts flat and measure one inch below armhole. (Double the width to get the overall chest size.)

Chest - Stand with arms down at sides, measure around the upper body, under arms and over the fullest part of the chest.

Bust - With arms down at sides, measure around the upper body, under arms and around the fullest part of the bust.

Body Length - Measured from high point of shoulder to hem.

Sleeve Length - Start at center of neck and measure down shoulder, down sleeve to hem.

Waist - Measure around your waist or where you normally wear your pants. Place your index finger between your body and the tape to allow accurate fit. For a baggy fit, add 2-4 inches to waist size. Flannel pants can be worn at either the waist or at the hip. To determine correct size, measure where you want the pants to fit and order that size.
